

User Acceptance Testing

1. Project Information

Field	Value
Project Name	Workflow
System Name	Additional Time Work
Version	1.0.0
UAT Start Date	[Insert Date]
UAT End Date	[Insert Date]
Prepared By	Software Development Team

2. Purpose

This UAT verifies that the Additional Time Work process works as expected for business users and is ready for production use.

3. Test Scope

- Create and submit a new Additional Time Work request
- Validate required fields during submission
- Review, approve, reject, or rework a request
- Resubmit or cancel a request after rework
- Complete HR review and close the request
- Delegate an approval to another user (Redirect and Share)
- Track request progress and status updates
- Generate request report output
- Verify notifications for key workflow actions

4. Test Notes

- Use business roles only: Employee, Manager or HoD, and HR Team.
- Record the actual result after each test.
- Mark each test as Pass, Fail, or N/A.
- If a request is sent back for rework, update it and submit it again.

5. Test Scenarios

5.1 Request Submission

Scenario ID	Business Flow	Test Scenario	Role	Preconditions	Steps	Expected Result	Actual Result	Status
UAT-01	Request submission	Create and submit a new Additional Time Work request	Employee	User can access Workflow and Additional Time Work	1. Open Workflow. 2. Go to Additional Time Work. 3. Click New Request. 4. Add at least one line with Employee, Date, Work On category, and Hour. 5. Add a remark. 6. Submit the request.	The request is created successfully and moves to Waiting Approval. The approver receives a notification.		
UAT-02	Request submission	Try to submit a request with missing required information	Employee	User is on the new request form	1. Open a new request. 2. Leave one or more required fields empty in the line details. 3. Click Submit.	The system shows a clear message asking the user to complete the missing information. The request is not submitted.		
UAT-03	Request submission	Submit one request with multiple line items	Employee	User can create a new request	1. Open a new request. 2. Add multiple	The request is submitted with all line items saved correctly.		

Scenario ID	Business Flow	Test Scenario	Role	Preconditions	Steps	Expected Result	Actual Result	Status
					lines with valid data. 3. Click Submit.			

5.2 Review and Approval

Scenario ID	Business Flow	Test Scenario	Role	Preconditions	Steps	Expected Result	Actual Result	Status
UAT-04	Approval review	Approve a request	Manager or HoD	A request is waiting in My Approvals	1. Open My Approvals. 2. Open My Contribute List. 3. Open the request. 4. Add a comment if needed. 5. Click Approve.	The request status changes to Approved and the requester receives a notification.		
UAT-05	Approval review	Reject a request with a reason	Manager or HoD	A request is waiting in My Approvals	1. Open My Approvals. 2. Open My Contribute List. 3. Open the request. 4. Add a reason in the comment field. 5. Click Reject.	The request status changes to Rejected and the requester receives a notification with the reason.		
UAT-06	Approval review	Send a request back for rework	Manager or HoD	A request is waiting in My Approvals	1. Open My Approvals. 2. Open My Contribute List. 3. Open the request. 4. Add a comment explaining what must be changed. 5. Click Rework.	The request status changes to Reworked and the requester receives a notification.		

5.3 Rework and Resubmission

Scenario ID	Business Flow	Test Scenario	Role	Preconditions	Steps	Expected Result	Actual Result	Status
UAT-07	Rework handling	Update a reworked request and submit it again	Employee	The request has been returned for rework	1. Open the reworked request. 2. Review the comment from the approver. 3. Update the required information. 4. Submit the request again.	The request is resubmitted and returns to Waiting Approval. The approver receives a new notification.		
UAT-08	Rework handling	Cancel a request during rework	Employee	The request has been returned for rework	1. Open the reworked request. 2. Click Cancel. 3. Confirm the action.	The request status changes to Cancelled and no longer appears in active approval queues.		

5.4 HR Review and Closure

Scenario ID	Business Flow	Test Scenario	Role	Preconditions	Steps	Expected Result	Actual Result	Status
UAT-09	HR review	Close an approved request	HR Team	The request has already been approved and is assigned to HR review	1. Open My Requests. 2. Open My Contribute List. 3. Open the approved request. 4. Review the details. 5. Click Close.	The request status changes to Closed and the workflow is completed.		
UAT-10	HR review	Send an approved request back for rework	HR Team	The request is in HR review	1. Open My Requests. 2. Open My Contribute List. 3. Open the approved request. 4. Add a rework comment. 5. Click Rework.	The request is returned to the requester for correction with the HR comment.		

5.5 Tracking and Reporting

Scenario ID	Business Flow	Test Scenario	Role	Preconditions	Steps	Expected Result	Actual Result	Status
UAT-11	Request tracking	Check the workflow progress for a request	Any user with access	The request has already moved through at least one step	1. Open the request. 2. Select View Flow.	The workflow progress is displayed clearly so the user can see the		

Scenario ID	Business Flow	Test Scenario	Role	Preconditions	Steps	Expected Result	Actual Result	Status
						current step and history.		
UAT-12	Request tracking	Confirm the request appears in the correct queue	Employee, Manager or HoD, HR Team	The request has been submitted or assigned	1. Open the relevant queue. 2. Find the request in the list.	The request appears in the correct list for the current role and status.		
UAT-13	Reporting	Generate Additional Time Work request report	Employee, Manager or HoD, HR Team	At least one request exists	1. Go to Workflow > Additional Time Work. 2. Click the gear icon (top-right corner). 3. Click Additional Time Work Request Report.	The report is generated successfully and displays the expected request data.		
UAT-14	Notifications	Verify notifications for key actions	Employee, Manager or HoD, HR Team	Users and inbox notifications are active	1. Submit a new request. 2. Approve one request. 3. Rework one request. 4. Reject one request.	Notifications are sent to the correct users for submission, approval, rework, and rejection events.		

5.6 Delegation

Scenario ID	Business Flow	Test Scenario	Role	Preconditions	Steps	Expected Result	Actual Result	Status
UAT-15	Delegation	Redirect approval to another person	Manager or HoD	A request is waiting in My Approvals	1. Open My Approvals. 2. Open My Contribute List. 3. Open the request. 4. Choose Redirect. 5. Select another user. 6. Confirm the action.	The request moves to the selected approver and the original approver no longer owns the task.		
UAT-16	Delegation	Share approval with another person	Manager or HoD	A request is waiting in My Approvals	1. Open My Approvals. 2. Open My Contribute List. 3. Open the request. 4. Choose Share. 5. Select another user. 6. Confirm the action.	Both users can view and act on the request. The original approver still keeps access.		

6. Acceptance Criteria

The UAT is successful when all critical scenarios pass, no major business issue remains open, and the business users confirm the process is ready for production.
