

Home Leave Ticket User Guide

This guide explains how to create, review, and complete Home Leave Ticket requests in the Workflow application.

Roles

This workflow uses the following roles:

- Employee: creates and submits a request
- Manager or HoD: reviews requests and approves, rejects, or reworks them
- Admin: reviews and processes requests when required

Workflow Process

Access the Workflow

1. Log in to the system.
2. Open the Workflow app.

Reference

Statuses

Status	Meaning
Draft	The request has been created but not submitted.
Waiting Approval	The request is waiting for Manager or HoD approval.
Approved	The request has been approved.
Rejected	The request has been rejected.
Reworked	The request has been sent back for changes.

Notifications

Users receive notifications when a request is submitted, approved, rejected, or reworked.

Track Request Progress

Select **View Flow** to see the visual workflow progress.

Delegation

There are two delegation options:

- 1. **Redirected**: Transfers full approval authority to another person. The request leaves your queue and moves to the selected approver.
- 2. **Share**: Keeps you as an approver and adds another person to help. Both of you can view and act on the request.
