

Meal Allowance and Laundry User Guide

This guide explains how to create, review, and complete meal allowance and laundry requests in the Workflow application.

Who Uses This Guide

The workflow supports three primary roles:

- **Employee:** Creates and submits requests.
- **Manager / HoD:** Approves, rejects, or sends requests back for rework.
- **Admin:** Reviews, approves, or issues requests when needed.

Workflow Process

Accessing the System

1. Log in to the system.
2. Open the **Workflow** application.

Managing Requests

Request Statuses

Status	Meaning
Draft	The request is created but not yet submitted.
Waiting Approval	The request is waiting for Manager or HoD review.
Approved	The request has been finalized and approved.
Rejected	The request has been denied.
Reworked	The request was sent back to the creator for updates.

Tracking & Notifications

- **Notifications:** You will receive automated updates when a request is submitted, approved, rejected, or reworked.
- **Progress Tracking:** Click **View Flow** on any request to see its visual progress in the workflow.

Delegating Approvals

If you need someone else to handle your approvals, choose one of these options:

1. **Redirected:** Transfers full authority to another person. The request leaves your queue entirely.
2. **Share:** Keeps you as an approver but adds a colleague to help. Either person can take action.
